STORMWATER IMPROVEMENT IMPLEMENTATION PLAN -

PROFESSIONAL ENGINEERING SERVICES

INFORMATION FOR THE PROPOSERS

SECTION # 1

1.0 INTRODUCTION

The Village of Key Biscayne (the “Village”), a municipality located in Miami-Dade County, Florida, pursuant to the “Consultants’ Competitive Negotiation Act” (CCNA), Section 287.055, Florida Statutes, which governs the acquisition of architecture, professional engineering, landscape architecture, or registered surveying and mapping, and as may be amended, hereby requests qualifications for the selection of a firm (the “Consultant”) to provide professional engineering services (the “Services”) to the Village for the purpose of preparing and assisting in the stormwater improvement implementation plan for the Village’s stormwater improvement projects, as specified in the scope of services herein below.

The intent of this request is to assist the Village in fulfilling goals and projects established in its Stormwater Improvement Implementation Plan in order to maximize fiscal efficacy and ensure compliance with the latest local, state, and federal regulations.

The Village adopted its first Stormwater Master Plan in 1993, it has since been updated with a modernized electronic inventory which includes GIS maps and Hydrologic & Hydraulic (H&H) models. Recent data collection and local complaint logs identify several critical deficiencies in the Village’s drainage infrastructure. These deficiencies are prioritized by areas of repetitive flooding and will be implemented in the Village’s Stormwater Improvement Plan, see Scope of Services.

One (1) engineering firm will be selected to provide engineering services for various stormwater improvements generally described in the Scope of Services section of this package.

Florida law requires the Village to make a determination of a respondent’s qualifications to perform the Services prior to engagement. The information used in this RFQ will be used by the Village to make this determination. The Village intends to execute an agreement with the selected Consultant for the Services provided in this RFQ.

SECTION # 2

SCOPE OF SERVICES

2.0 GENERAL BACKGROUND

The Village intends to retain one (1) firm for the purpose of preparing and thereafter assisting in the implementation of the Stormwater Improvement Plan.

2.1 ENGINEERING SERVICES

Engineering services will be required for the High Priority Areas identified in the next section. These services required may include, but are not limited to, the following:

- Permanent and temporary erosion control systems
- Evaluation and analysis of existing drainage infrastructure
- Evaluation and design of backflow prevention devices
- Evaluation and design of gravity drainage wells
- Evaluation and design of possible pump station(s)
- Evaluation and design of pressurized drainage wells
- Hydrologic and hydraulic evaluation of basins, sub-basins, and potential sub-basins
- Field Survey and data collection
- Stormwater preliminary and Final design
- Technical Reports
- Public Information Services
- Plans preparation
- Bid Document Development
- Regulatory permitting
- Post design services
- Construction Administration Service
- Other stormwater related services as needed
- Evaluation of high tide and its effect on the proposed drainage improvements

2.2 HIGH PRIORITY AREAS

The current Stormwater Master Plan includes a Hydrologic & Hydraulic (H&H) model which delineates basins within the Village by utilizing extensive infrastructure data and GIS mapping. The H&H model was developed as a planning tool to identify problematic flooding areas and ineffective infrastructure components. Combining this tool with local complaint logs the Village was able to pinpoint high priority areas. The following is a summary of possible improvements within these high priority areas.

Holiday Colony (Sonesta Drive and Heather Drive East of Crandon Boulevard including Caribbean, Gulf, Pacific, and Atlantic - Basin 10)

Engineering Services in this area may include, but are not limited to the following:

- Evaluate impact of new wall on the north side of Sonesta Drive.

- Evaluate and consider a backflow preventer prior to the pipe connection with the Crandon Boulevard interceptor.
- Evaluate existing pump station and drainage wells capacity on Heather Drive.
- Evaluate modifications to replace existing vertical pumps with submersible pumps.

Fernwood Road and West Heather Drive (Basin 7A & 7B)

Engineering Services in this area may include, but are not limited to the following:

- Evaluate impacts of drainage improvements at new sub-basin 9B (K-8 Drainage Area).
- Evaluation, clarification, and possible connection of these basins to the main interceptor at Harbor Drive
- Evaluation and possible installation of backflow preventers
- Evaluation of existing drainage infrastructure in this area

Ridgewood Road and West Enid Drive (Basin 6B)

Engineering Services in this area may include, but are not limited to the following:

- This drainage area must be evaluated for possible improvements.
- Evaluate impacts of drainage improvements at new sub-basin 9B (K-8 Drainage Area).

Ocean Lane Drive (Basin 9A)

Engineering Services in this area may include, but are not limited to the following:

- Evaluate existing pump station to replace existing vertical pumps with submersible pumps
- Assess existing collection system and identify corroded metal pipes.
- Install backflow preventers before connecting to the Crandon Boulevard interceptor.

Galen Drive, Sunrise Drive, and East Enid Drive all east of Crandon Boulevard (Basin 11)

Engineering Services in this area may include, but are not limited to the following:

- Evaluate options to interconnect the existing drainage systems on Galen, Sunrise, and East Enid.
- Evaluate possibility of new gravity well(s) on Galen Drive.
- Evaluation and possible installation of backflow preventer(s).
- H&H modeling of most viable connection to the Crandon interceptor

West Heather Drive, Allendale Road, Palmwood Lane, Redwood Lane (Basin 8)

- Evaluate drainage performance after installation of new outfall 15R
- Recommend any further improvements

SECTION # 3
RESPONSE SUBMISSION REQUIREMENTS AND EVALUATION

Twelve (12) signed (one (1) original and eleven (11) bound copies) responses and one (1) CD shall be submitted in one sealed package, clearly marked on the outside "Response to Village of Key Biscayne RFQ 2014-01 for "Stormwater Improvement Implementation Plan – Professional Engineering Services." The outside of the sealed envelope shall also show the name of the respondent.

All responses must be received by **1:30 p.m. on November 19, 2014** at the Village Clerk's Office located at:

Village Clerk
Attn: Stormwater Improvement Implementation Plan – Professional Engineering Services
RFQ #2014-02
Conchita H. Alvarez, MMC
Village Clerk
88 West McIntyre Street, Suite 220
Key Biscayne, Florida 33149
Phone: 305-365-5506
Fax: 305-365-8914
calvarez@keybiscayne.fl.gov

All responses must be received by the Village Clerk by the Response Due Date and time. All Responses received after the due date and time will not be considered.

3.1 RESPONSE EVALUATION CRITERIA

The Village Council will evaluate the responses based on the factors provided below:

- A. Qualifications / ability of professional personnel and qualifications;
- B. Project Approach Submitted;
- C. Whether the firm is a certified minority business enterprise;
- D. Experience; Past performance;
- E. Location of the firm and the place from which work is to be performed; and
- F. Recent, current, and projected workload of the firm.

3.2 PROCESS OF SELECTION

The Village Council shall evaluate the responses to the RFQ and may require public presentations by, no fewer than three (3) firms, regarding their qualifications, approach to the Project, and ability to furnish the required Services. The Village Council shall select in order of preference no fewer than three (3) firms deemed to be the most highly qualified to perform the required Services. The Village Council may request, accept, and consider proposals for the compensation to be paid under the contract only during competitive negotiations discussed below.

3.3 PROCESS OF COMPETITIVE NEGOTIATIONS

Following selection and ranking of the most qualified firms, the Village shall negotiate a contract with the most qualified firm for the Services at compensation which the Village determines is fair, competitive, and reasonable. In making such determination, the Village shall conduct a detailed analysis of the cost of the Services required in addition to considering the scope and complexity. Should the Village be unable to negotiate a satisfactory contract with the firm considered to be the most qualified at a price the Village determines to be fair, competitive, and reasonable, negotiations with that firm shall be formally terminated.

The Village shall then undertake negotiations with the second most qualified firm. Failing accord with the second most qualified firm, the Village shall terminate negotiations. The Village shall then undertake negotiations with the third most qualified firm.

Should the Village be unable to negotiate a satisfactory contract with any of the selected firms, the Village shall select additional firms in the order of their competence and qualification and continue negotiations in accordance with this section until an agreement is reached.

Notwithstanding the foregoing, the Village maintains the right to reject all proposals submitted if so desired.

Final determination and award of a contract shall be made by the Village Council.

END OF SECTION

[SPACE LEFT INTENTIONALLY BLANK]

SECTION # 4
